

UltraFlex

The Gold Standard for Renting Solutions
For Chromatography & Mass Spectrometry

What is UltraFlex?

UltraFlex is a hybrid financing solution that combines the advantages of a long-term commitment with the flexibility of short-term rental.

Financial advantages: Significantly reduced monthly cost and financial commitment compared to outright purchase or traditional financing.

Maximum Flexibility: More flexible than traditional financing: keep costs low without sacrificing freedom, with Bios Annual Return Policy.

Early Purchase Option: Buy the equipment at any time at the best price, with a deduction for rental payments already made.

Configuration Upgrades: The flexibility to amend the configuration every year according to the evolving needs of your laboratory.

Why Choose UltraFlex?

Limiting options solely to purchasing, can lead to difficulties in the ability to manage the fleet of instruments as new analytical and/or regulatory requirements impact your laboratory processes.

Solution advantages

- Laboratory resources & costs optimisation
- Maximum flexibility (No compromise between price and freedom)
- Better risk management (Anticipation of regulatory or environmental requirements)
- Increased resilience (Downturn or change in activity, uncertainty regarding future workload)
- Option to include maintenance & services costs

Key points

- Meets all types of needs from 12 to 60 months
- Limited initial budget (Opex or Capex)
- No bank approval required (startups)
- Quick and easy financial validation for an equipment operational as soon as possible

How it Works

1. Provide us with the instrument configuration.
2. Receive our UltraFlex proposal within a few days.
3. Get financial approval within 48 hours.
4. Equipment ordered within a week.
